

KEMISOLA AANU ADELAKUN

Senior Technical CRM Manager | CRM & Player Lifecycle Lead

Lagos, Nigeria | misolakhemmy@gmail.com | +234 803 647 7871 | linkedin.com/in/kemisola-adelakun-aanu

PROFESSIONAL SUMMARY

Technical CRM and lifecycle leader who builds CRM functions, operating models and customer journeys from the ground up. I connect lifecycle strategy with segmentation, automation, event-driven triggers, bonus logic, CRM integrations and performance measurement. My work sits across Product, Engineering, Data, Risk, Payments, Compliance and Player Operations, with a focus on retention, customer lifetime value and sustainable commercial growth.

Across iGaming businesses, I have built and scaled CRM environments covering onboarding, activation, retention, reactivation and churn prevention. Results include growing monthly player retention to a sustained 25% against a 20% target, supporting lifecycle operations for a 500,000+ active-player platform and reducing CRM operating costs by 25% through automation and workflow efficiency.

CORE CRM & TECHNICAL CAPABILITIES

CRM build-out & scaling	CRM operating models; campaign frameworks; governance; CRM platform integration; technical requirements.
Lifecycle journeys	Onboarding; activation; retention; reactivation; churn prevention; automated and manual journeys.
Multi-channel delivery	Email; SMS; push; in-app; on-site; responsible-gaming and compliance-aligned messaging.
Bonuses & gamification	Sportsbook/casino promotions; free bets; deposit bonuses; free spins; wagering; expiry; loyalty; ROI and margin.
Segmentation & VIP	Behavioural/value segments; lifecycle stage; product preference; VIP tiers; risk and abuse segmentation.
Analytics & optimisation	Retention; reactivation; conversion; incremental uplift; cohort analysis; A/B testing; campaign performance.
Integration & architecture	APIs; webhooks; backend events; CRM-backend data flows; bonus engines; payments providers; CMS.
CRM platforms & tools	Optimove; FastTrack CRM; Customer.io; Xtremepush; SendGrid; Mailchimp.

PROFESSIONAL EXPERIENCE

Senior Technical CRM Manager

ChampBet | Aug 2026 - Present

- Appointed in August 2026 to continue leading lifecycle systems, CRM infrastructure and cross-functional platform delivery.
- Own the connection between CRM strategy and technical execution, with lifecycle decisioning, platform reliability and measurable commercial outcomes at the centre of the role.

Head, Technical CRM Manager

AvidlioniZ · BetJara | Jun 2026 - 20 Aug 2026

- Built the CRM function from the ground up, the third CRM operating model built from inception after GinjaBet and betBonanza.
- Owned end-to-end CRM strategy and multi-channel execution in Optimove, including segmentation, automation and event-driven trigger logic.
- Designed responsive HTML email templates and welcome bonus campaigns for casino and sports, with structured A/B testing and reporting.
- Built cohort analysis and organic player-segment reporting automation to support data-led campaign decisions.
- Created workaround segmentation to detect first-bet behaviour where native bet-count triggers were unavailable, and developed weekly cashback structures.
- Led localisation of promotions by converting percentage-led offers into clear flat-naira amounts for Nigerian players.
- Coordinated Product, Risk, Payments, Player Operations, IT, integration teams, agencies and vendor partners.

Head, Technical CRM & CSM Manager

GinjaBet | Jan 2025 - Jun 2026

- Built the CRM function from the ground up across onboarding, activation, retention, reactivation and churn prevention.
- Owned CRM QA, testing, monitoring and deployment to protect trigger accuracy and journey reliability.
- Designed multi-channel campaigns across email, SMS, push, in-app and on-site messaging.
- Defined sportsbook and casino bonus mechanics, wagering, eligibility, expiry and abuse-prevention logic with Risk and Payments.
- Built behavioural, value, lifecycle and product-preference segments and personalised offer cadence.
- Grew monthly retention from 0% to a sustained 25%, exceeding the original 20% business target.

Head, Technical CRM

betBonanza | Dec 2019 - Dec 2024

- Built and scaled CRM from inception for a sports betting platform with 500,000+ active players.
- Designed lifecycle automation across acquisition, retention, churn prevention and reactivation.
- Led bonus, loyalty, gamification and VIP frameworks while balancing engagement, profitability and risk.
- Partnered with Risk and Payments on bonus abuse controls and margin protection.
- Designed A/B tests across bonuses, messages and journey logic to improve ROI.
- Reduced CRM operating costs by 25% through automation and workflow efficiency.
- Worked with Product and Engineering on CRM integrations, event tracking and data flows.

Digital Marketing Strategist

CCeramica | Jan 2018 - Nov 2019

- Developed and managed digital campaigns and social media strategy.
- Managed website content, analytics, performance reporting and ongoing SEO.

SELECTED CRM & RETENTION PROJECTS

- **Event-Driven CRM Architecture:** backend-triggered journeys for deposits, bets, wins/losses, inactivity and churn signals using API/webhook integrations.
- **CRM Payments Backend Integration:** automated bonus issuance, eligibility validation and lifecycle messaging across sportsbook, payments and CMS systems.

CROSS-FUNCTIONAL LEADERSHIP

- Reports into senior leadership while translating commercial goals into CRM systems and operating priorities.
- Works with Product and Engineering on event triggers, API/webhook integrations and CRM-backend data flows.
- Works with Risk and Payments on bonus eligibility, wagering logic and abuse-prevention controls.
- Aligns Player Operations and Customer Support with lifecycle messaging and day-to-day player handling.
- Coordinates IT, integration teams and external vendors on third-party platform delivery.

EDUCATION & CERTIFICATIONS

BA.Ed. English — Obafemi Awolowo University, Ile-Ife, Nigeria | Sep 2016

AWS Certified Solutions Architect - Associate (SAA) | 2024

AWS Certified Cloud Practitioner (CP) | 2024
